GURAMRIT GREWAL

COMMERCIAL EXPERIENCE / PROCUREMENT / ANALYTICAL PROJECTS

Wolverhampton, UK | g-grewal-98.github.io

PROFILE

Science graduate with seven years' retail experience involving product sourcing, buying recommendations, pricing and customer relationships. Introduced a new retail product category and built analytical tools to support purchasing decisions, combining commercial judgement with Excel, SQL, Python and Power BI.

RELEVANT STRENGTHS

Product selection • Supplier negotiation • Commercial analysis • Power BI • SQL • Excel

PROFESSIONAL EXPERIENCE

Shop Assistant | Vino Kinver Convenience Store, Kinver, Stourbridge *Sep 2019 – Present*

- Proposed and helped expand the store's first trading-card category, influencing the introduction of new product ranges based on expected demand.
- Independently researched products and suppliers, negotiated purchasing terms and made buying recommendations frequently approved by the owner.
- Used supplier quotes, margins, stock movement and customer preferences to recommend prices and replenishment priorities.
- Assessed future demand and supply constraints when recommending advance purchases, with selected products subsequently sold profitably.
- Developed a workplace Excel buying and stock tracker for more than 100 product lines.

APPLIED PROJECT | PROCUREMENT ANALYTICS, 2026

- Developed Python, SQLite and Power BI tools to assess supplier offers, pricing evidence and buying scenarios; used analytical outputs to inform real purchasing recommendations.
- Public code and interactive demonstrations use fictional product data, avoiding exposure of supplier quotations and private shop records.

TECHNICAL & TRANSFERABLE SKILLS

Excel pricing models • SQL/SQLite • Python data processing • Power Query and Power BI/DAX • Customer and supplier communication

EDUCATION

BSc (Hons) Bioveterinary Sciences (2:1) | Royal Veterinary College, University of London | 2019
